

Robotics Peer Benchmark — one-page read (FY2024, public; latest rounds, private)

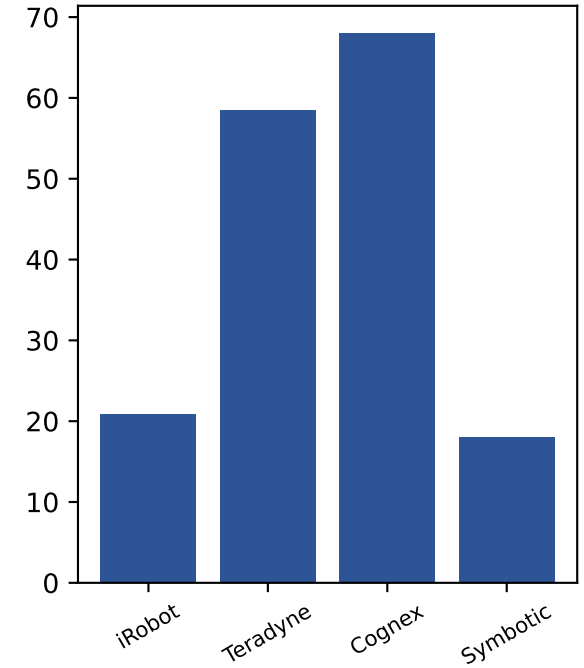

Revenue scale (\$M, FY24)

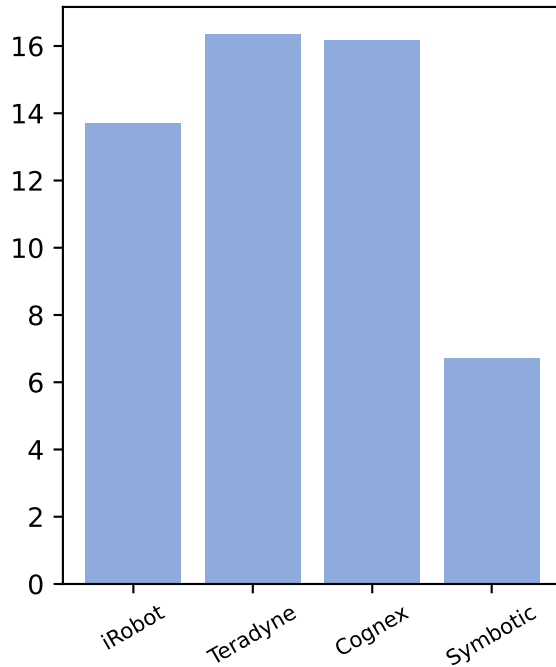

Revenue growth (YoY %)

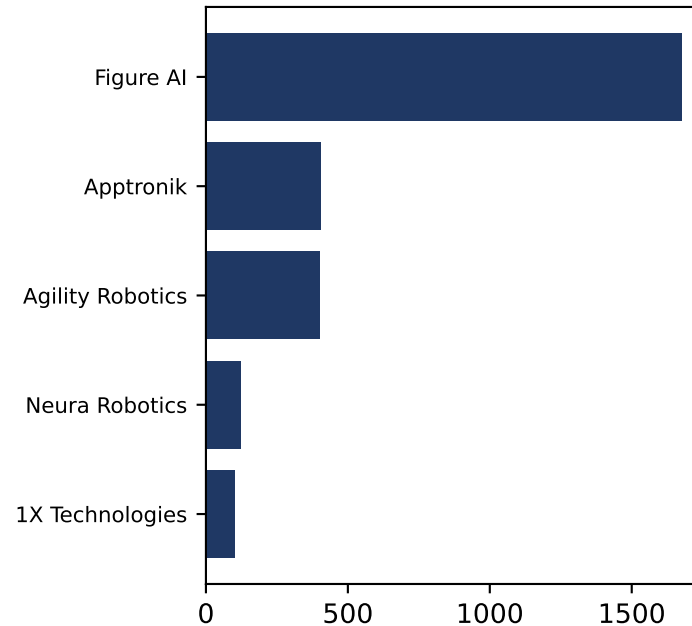

Gross margin (%)

R&D intensity (% of revenue)

Private capital raised (\$M, disclosed)

Read in 30 seconds:

- Vision/test peers (Cognex, Teradyne) carry much higher gross margin than robotics hardware (iRobot, Symbotic).
- R&D intensity is high across the board (~14-16% of revenue).
- Humanoid privates are funded far ahead of revenue — bets on future deployment.

Public = SEC FY2024 filings/earnings.
Private = press-sourced rounds.
